Hello Rich,

Thank you for taking the time to meet with me. I enjoy meeting with people and putting a face to the name. I can certainly provide you with a proposal. Just a few quick questions. You would like the bid to be two separate bids for presenting correct?

Also if I recall correctly there is not power located near each palm and the light poles do not have power. Would you like this proposal to include the materials (extension cords, three ways. Ext...) and the labor to run power to each palm, if so would you like me to price that as if you will have power provided at each light pole from the Over Street Bristol Lighting?

Or is power unknown at this time?

Thank you,

Joe Castro

Subject: Cahuenga Blvd. Proposal Requests.

Hi Joe,

Thanks for dropping by and taking the time to meet face to face. As I mentioned, we are interested in putting string lights in the palm trees that line Cahuenga. Cahuenga Blvd. has 35 palm trees on both sides of the block from Hollywood Blvd. south to Sunset Blvd. I would love if you could send me a proposal for what it would cost to light each of these trees like we did for the Blvd.

Also, can you send me a proposal for 18 trees for the block from Hollywood to Selma as well as a proposal for the 17 trees from Selma to Sunset. Selma is the boundary that separates the two BIDs so I would need to get pricing for both to present to each BID.

Thank you so much and please let me know if you have any questions or want to chat!
